Event Producer:

“Green & Smart Die Casting Solutions for Sustainability”

ALUCAST 2022- International Conference and Exhibition on Aluminium Die-Casting & Allied Technology will be held at the Chennai Trade Centre, Chennai, from the 1-3 December, 2022. The Theme for the Event is “Green & Smart Die Casting Solutions For Sustainability”.

Organised by the Aluminium Casters Association of India and produced by NuernbergMesse India, the event is supported by industry leaders including Sundaram Clayton, Jaya Hind Industries, Rockman Industries, Frech, Alubee-Die-Casters, Dimo Castings and several other leading players.

A Technical Conference spanning all three days will feature sessions by internationally recognised experts on diverse aspects of die casting technology which are emerging and are likely to greatly influence the manner in which die cast parts are conceived, produced and used. Pertinent topics such as Aluminium Casting Adoption for EV's, Smart Die Casting Solutions for Sustainability, Innovative Product Design will be presented during the event.

The technical papers will be supplemented by Product Presentations, introducing some of the most significant recent advances. The conference at ALUCAST by focusing on the above topics, aims to assist the Die Casting community in India to remain technologically advanced and competitive.

Concurrent to the conference, the Exhibition with over 175 leading brands will showcase Die-Castings, Machines, Accessories, Dies, Materials, and Services, showcasing latest technology and trends. The event will be an ideal opportunity for practising die casters to network with the best in the business and derive maximum benefit from the experience.

Foundries that have shown outstanding performance in the year gone by will be felicitated, additionally, the best casting award will recognize the outstanding casting designs of the year. The Sustainability Pavilion at the event will draw on the expertise of Tata Motors and Fraunhofer Institute for Manufacturing Technology and Advanced Materials to bring forth latest trends and developments

Mr. Prasan Firodia, President – Aluminium Casters Association of India, Managing Director- Force Motors & Jaya Hind Industries is upbeat about the upcoming edition of the event “Technology has opened up a plethora of opportunities for the automotive industry players to explore emerging trends like electric vehicles, digitisation, automation, innovations in the assembly line, enhancement of the supply chain model etc. At ALUCAST 2022, delegates and visitors would have an opportunity to interact with experts and enhance their knowledge about “Green & Smart Die-Casting Solutions”. Technical papers to be presented during the conference will explain the methodology followed for such solutions and would be of immense value to delegates. Visitors to the exhibition can see for themselves die

casting machinery, accessories, tooling, and other equipment built with advanced technology features”.

The Die-Casting Industry today has undergone a sea change. Automotive industry in India is going through major modernisation, adopting latest technology of complex designs and alternate solutions for reduction in carbon emission and vehicle weight and moving towards electric vehicles.

Sonia Prashar, Managing Director, NürnbergMesse India is optimistic about the development of the event and the industry “ALUCAST 2022 promises to be bigger and better than before. The impressive growth of the number of exhibitors correspond to the growing importance of the die casting industry in India. At ALUCAST, we offer a business platform which gives participants an opportunity to showcase their latest products and technology and network with a global audience.”
